

Recently I have been restoring and rejuvenating Slate and Sandstone Patios in your area. I also rejuvenate Terracotta, Travertine, Limestone and Marble floors. If your Patio or Kitchen floor looks tired and worn out I can restore them to look as good as new. If you are interested in taking it a stage further, call me in Natural Surfaces so that I can call out, assess the situation and give you a quotation. Mobile 087-2623672.
